TO WHOM SO EVER IT MAY CONCERN

This is to certify that we have used Kitec Multilayer Composite Pipe & it's fittings for Dust Suppression System in Iron Mines.

This system has operating pressure of 4 - 6 Bar and same is working successfully to our complete satisfaction.

Looking to the several advantages of Kitec Pipes, we have also used Kite Pipes & it's fittings in one of our Director's newly constructed Bungalow at EM Bye Pass Road for internal & external plumbing line of hot and cold water.

For Hallmark Aquaequipment Pvt. Ltd.
