Ref. No. RL/ 1322

Date : 22-1-98

TO WHOMSOEVER IT MAY CONCERN

This Is to certify that KITEC PIPES and fittings have been used in K.L.E. Sy's Institute of Dental sciences, Belgaum for water supply system in place of G.I. pipes and also for supply of compressed air in place of copper pipes.

Being hygienically superior to conventional pipes we found them ideally suited for use in hospitals and places where hygiene is an important factor. We have also been convinced that their anti-corrosion and maintenance free qualities of these pipes definitely give us long term benefits.

The overall performance of Kitec pipes is very impressive and the same shall be used in our future projects.
