TO WHOM SOEVER IT MAY CONCERN

This is to certify that we have examined, tested and finally put to use KiTEC pipes and fittings at our project "MAHATTA TOWER" located on plot No.54, B-Block Community Centre, Janakpuri, New Delhi-58, the pipes have been installed for the last 15 years and our experience with this new piping system has been outstanding. In fact, we have used the same piping system in our next other commercial buildings also.

We would like to confirm that the KiTEC piping system represents a quantum leap in terms of technology, speed of work, adaptability, flexibility of rework negligible wastage and minimal incidental work involved.

Hence, we would highly recommend the usage of this plumbing system to all those who are constantly on the look for better processes and materials for the building construction.

For Mahatta Towers Pvt. Ltd.

(R.K.Mahatta)
Director.
