TO WHOMSOEVER IT MAY CONCERN

This is to certify that we have used KITEC pipes and fittings at our Residential project at Kota. We can state that our experience with this new piping system has been outstanding.

We would like to confirm that the KITEC piping system represents a quantum leap in terms of technology as the speed of work has hanced substantially along with the speed the adaptability, flexibility of rework, negligible wastage and minimal incidental work involved.

Hence, we would highly recommend the usage of this plumbing system to all those who are constantly on the look for better processes and materials for the building construction.
