(Registered CPWD contractor)  
20, A/10 NEHRU NAGAR (W)  
GURUDWARA ROAD  
**BHILAI (C.G.)**

## **TO WHOM IT MAY CONCERN**

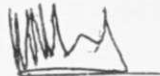

This is to certify that we have procured and installed **KiTEC Composite (PE: AL: PE) pipes** and its composite internal fittings of size ½” to 1.5” for hot & cold internal and external water line at our **CPWD** site at **UTTAL, BHILAI (C.G.)**.

We have found **KiTEC Composite (PE:AL:PE) pipes** are excellent piping concept for hot & cold plumbing lines, as these will not corrode or rust. The pipes can be hand bended at corners minimizing requirements of elbows. KiTEC pipes are available in coils of 50 to 100 mtrs length and with its leakproof compression type internal fittings; the installation is easy, convenient with no wastage and is faster.

We strongly recommend the use of **KiTEC pipes** and its fittings to those who are looking for **technically superior piping materials and maintenance free plumbing system.**

Thanking you.

Yours faithfully
