To Whom So Ever It May Concern:

Date:- 28-06-2010

This is to certify that we are using KiTEC Composite pipes and its Fittings for Hot and Cold water plumbing line for the past 5 years.

We have undertaken several renovation jobs of the bungalows/ flats/commercial office and in all the toilets and kitchen we have replaced corroded GI pipes with KiTEC pipes and its fittings. We have used KiTEC pipes in new toilets as well.

The most significant installation of KiTEC composite pipes and its fittings was executed by us in all the toilets and kitchens of the bungalows of Mr. A.N. Singh, Dy. M.D. of Tata steel at "C" Road, Jamshedpur in the year 2007.

We have also used KiTEC pipe for LPG line under the safe kitchen concept wherein, Gas cylinder is kept outside the kitchen and it is connected to the gas burner/cooking range with a suitable pipe.

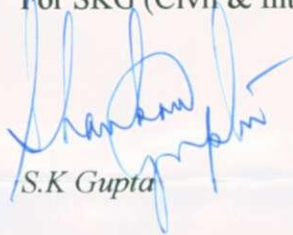

We are extremely pleased with the performance which we get from KiTEC piping System as it is convenient to install with minimum fittings, does not corrode at all, is full Proof against leakages even under high pressure.

SKG (CIVIL & INTERIORS) PVT LTD.

We are also fully satisfied with the services being provided by the company's associate
M/s. unique pipetech.

We wish to recommend KiTEC piping system to all those who are looking for a trouble
free and better plumbing piping solution.
