TO WHOM SO EVER IT MAY CONCERN

March 22, 2003

This is to certify that we have used 'KiTEC' composite pipes & fittings in the hot water line of 'TATA BP' make Solar Water Heating System installed in the North East & Sikkim. So far we have used 'KiTEC' pipes in almost 25 systems installed ranging from 100 Ipd to 1000Ipd that are use in for almost one to two years.

We are pleased to state that we have found the performance of the 'KiTEC' pipes to our satisfaction and when compared with *GI Pipes*, they are easy to lay & install. Also, as they are bad conductors of heat, the cost of insulation is also saved making it overallcost effective.

For Swastik Enterprises
