TESTIMONIAL LETTER

I hereby give my Testimonial that plumbing of KiTEC water supply pipe and pipe fittings system has been done at my ROW BUNGLOW at Kalyan. The System is run both internally and externally including connections to the solar water heater.

The KiTEC system is very easy to install and can be easily dismantled. The performance of KiTEC system is satisfactory for last one year because the joints are watertight.

I am very confident with KiTEC as the smooth and corrosion free surface of the pipe and pipefitting assures me increased and rust free water at the outlet.

VERY TRULY YOURS .

DR . SANDEEP JADHAV
